Come home to healthy, green living! Silver Level NC Green Built Home and Energy Star rated three bedroom farmhouse in North Asheville built by Jade Mountain Builders in 2008. The custom-built home has high-end finishes, including solid doors, sound-baffling, multi-zoned HVAC, separate garage, a botanical garden landscape, a storage shed of seasoned wood that conveys, and fun features like a screened porch, bedroom lofts and a laundry chute. A beautifully built house tucked in the Beaverdam Valley less than a mile from stores and restaurants but situated in a pastoral cove.
